

## TWO MORE DEAD FOUND AT SCENE OF BIG BLASTS

Jersey City, Aug. 2.—Two more bodies were found floating in New York bay within a few rods of the scene of the Big Tom Pier explosion. One of the bodies was identified as that of Captain Cornelius Leyden, chief of the Lehigh Valley Railroad fire department. The finding and identifying of Leyden's body paves the way for prosecution of those who may be found responsible for the explosion.

In complaints upon which warrants have been issued and served upon four persons, the death of Leyden is made the basis of individual charges of manslaughter, but to make out the case it was necessary to have the body found and identified. Two other bodies found in the vicinity of the explosion still remain unidentified.

## Meningitis More Deadly Than Polymyelitis, in City's Recent Illness

(Continued from Page 1.) must be gotten rid of, said Dr. Sophian.

Blame may not be placed on the tenants, said Dr. Sophian. The conditions in the building are up to the owner. Tenements must be improved in five days, is the health department order.

Reports have been received on ice cream parlors. Of the 49 examined, 100 per cent were reported in need of better sanitary conditions. A threat is made that the sanitary improvements, to be mentioned in a notice to each parlor proprietor, must be installed in five days or the place will be closed. The cleanliness of the dispensers must be given attention to, it is asserted. Sanitary cups will be recommended.

At 11 a. m. tomorrow, Dr. Sophian will hold a conference with the housing committee of the Chamber of Commerce against the tenement problem.

Dr. Sophian said today that some of the milk dealers and producers have been holding off on plans for pasteurization because they doubt if the city will enforce the measure. Some called on Mayor Wilson this morning to inquire about this. They were told, said Dr. Sophian, that the city was never more in earnest about anything. It was understood today that announcement of the date after which non-pasteurization will be banned, will be announced Friday.

### Fireman Rutherford Injured By Trolley

Knocked to the ground when hit by the running board of a Barnum avenue trolley as he was walking from the rear of a standing trolley headed in the opposite direction at Barnum avenue and East Main street late yesterday afternoon, Ladderman George B. Rutherford of Engine company No. 6 was severely bruised and is confined to his home today. His in-

Walking to the rear of the car, he was just about to step across the other track when struck by the running board and thrown to the ground, clear of the car.

He reported off to his captain and was attended by the department doc-

tor but will be able to resume duty in a few days.

### Performs Successful Operation on Judge Frederic A. Bartlett

Judge Frederic A. Bartlett of the city court who recently was stricken with an attack of septic sore throat due, it is believed, to milk infection is reported to have suffered a severe

relapse at his home this week, necessitating a delicate operation upon the throat.

This operation is said to have been performed successfully by the attending physician, Dr. Frank W. Stevens, with the result that Judge Bartlett is reported at his home today to be resting comfortably and much improved.

Owing to the enforced absence from the city court of Judge Frank L. Wilder, Judge Robert L. Munger of Ansonia has been requested to sit in this city.
